

Protective Overlay Films: OL-1000

Avery Dennison OL-1000 is a premium clear overlay film ideal for protecting traffic signs. Not only can vandalized traffic signs be cleaned, but when printed with a TrafficJet Print System printer, it will also carry the industry's longest-warranty.

OL-1000 film is coated with a transparent pressure-sensitive adhesive and acts as an effective barrier to protect the underlying sign graphic from damage caused by spray paint, lipstick, marker, and stickers. Unique to Avery Dennison—when used as part of the TrafficJet Print System—OL-1000 provides extended durability compared to the base sheeting alone.

Features and Benefits

- Anti-graffiti/anti-sticker
- UV protection
- Industry's longest warranties when used on TrafficJet printed signs

Warranty

Sheeting	Production Method	Warranty Period
T-11500 OmniCube	TrafficJet	15 years
T-6500, T-7500B, and T-7500 MVP	TrafficJet	12 years
Custom colors	TrafficJet	10 years

Lower your sign costs by extending sign life. Safeguard all of your traffic signs with OL-1000 protective overlay. For more information, visit reflectives.averydennison.com/ol-1000.
